

**1. Check the operation of your surveillance cameras.**

- Monitoring less than \$10 a week
- Uninterrupted Power Supply Installed

**2. Test your intruder alarm system change batteries if required.**

- Monitoring \$1 a day
- Walk through test
- Alarms loud and strobe lights working

**3. Lock all valuables in a proper safe.**

- Passports, jewellery, cash, sentimental items anything irreplaceable goes in the safe
- Take the key with you or store it off-site

**4. Move the cars (or make them impossible to steal)**

- Best option: park in a friend's locked garage
- Next best: jack the car up, remove wheels, lock the wheels in a different shed
- Remove the battery, lock the battery in a different shed

**5. Fit pad-lockable roller door brackets**

- Check [www.eosecurity.com.au/blog.php](http://www.eosecurity.com.au/blog.php) website blog for part number

**6. Secure every gate & fence**

- Heavy-duty padlock on ALL side gates
- Trim or remove any trees/branches within 2 metres of the fence.
- Lock Electrical Box with pad lock

**7. Smart lights on random timers**

- Mimic your normal evening routine

**8. Organise daily house checks & mail collection**

- Ask a trusted neighbour or family member to walk through
- Clear mail/flyers from the lawn and letterbox

**9. NO social media posts until you're back home:** Wait until you're home to share the holiday photos.

**10. Tell the kids (twice!):** No bragging to friends or posting "finally on holidays" until everyone is home.
